REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The claimed subject matter in claims 1-71 and specifically claim 49 has been allowed per Applicant's remarks and argument of august 26, 2004.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. It should be noted that Applicant's remarks on page 3 that: "since given the large number of document involved, and the cost of reproducing them, it is requested that a search be made within the Office to locate them," should be disregarded because the prior art documents have been submitted by the Applicant. The cited reference in the Information disclosure statements, foreign documents and publications, have been considered by the Examiner, however the US patents cited in the information disclosure statements received on June 11,2004 and July 02, 2001 have already been considered by the Examiner in the action mailed on 06/01/04, therefore, are not considered now. Considering the cited US patents, which were considered before in the action mailed on 06/01/04, will result in showing twice on the front of the patent once issued.

Priority

3. Applicant submitted priority paper, Canadian application No. 2,318,658, however the oath and declaration indicates that applicant is claiming priority based on Canadian application Nos. 2,318,658 and 2,293,097. Therefore acknowledgment to the priority under 35 USC 119 (a-d) is made in-part as indicated in the notice of allowance, PTOL 37.
